Dear Clerk,

## **DONCASTER LOCAL PLAN: DRAFT POLICIES AND PROPOSED SITES**

As you are aware the Council is preparing a new Local Plan to shape how Doncaster develops until 2032. The plan will influence the location and quantity of new development across the borough. A significant amount of work has recently taken place and much progress has been made since our last consultation on the homes and settlements work in 2016.

**This will be the first time we have consulted on our draft Local Plan policies and proposed sites. Please inform your councillors of the upcoming consultation and officers from the Local Plans Team will be contacting you in due course to discuss the consultation, draft proposals and how you can help influence the development of the Local Plan.**

From Thursday 13<sup>th</sup> September 2018 until Friday 26<sup>th</sup> October 2018 we are informally consulting on the **Draft Policies and Proposed Sites** which will form the core of the Local Plan and are essential for considering planning applications and decision making.

### **During the six week period will be consulting on:**

- Local Plan Vision and Objectives
- Policies and Proposals – to help decide future planning applications
- New sites – for housing, employment and minerals
- Supporting Evidence Base
- Sustainability Appraisal – assessing the Plan for environmental, social and economic impacts

All the consultation documents and additional information (including earlier consultations) are available: <http://www.doncaster.gov.uk/localplan>

### **How to respond:**

**Please respond to the questions in the online booklet by completing the separate response form (you don't need to answer all the questions). Please note, the consultation finishes at 5pm on Friday 26<sup>th</sup> October 2018.**

If you have any questions, or want to respond in another way, please email [localplan@doncaster.gov.uk](mailto:localplan@doncaster.gov.uk) or call 01302 734419.

Yours faithfully,

**Jane Stimpson**  
**Planning Policy and Environment Manager**
